

World-Class Provider of Training Products, Solutions and Services.

Rigworld Training Center (RTC) is a wholly Ghanaian owned, world-class training center that excels in providing a range of client-focused training services and products to various industries. We are building ourselves up to be the leading provider of learning, compliance and competence solutions for safety-critical industries in the West African region and beyond.

Our on-site hostel with a restaurant and fitness centre features a 24-hour front desk. The facility is available for those who may require overnight accommodation or stay for the whole duration of the training course.

ACCREDITATIONS

RTC is proud to constantly work towards providing the leading safety training across industries. Our center is currently internationally accredited and partners with leading industry accredited bodies to provide courses to the standards required. In many cases, various industry standards exist and RTC is able to facilitate and certify courses to their own internationally set upheld standards, or a specific accreditation by partnership when requested. For any further query, please do not hesitate to ask.
